“Your Duncan Financial Group team really delivered results! After working with our team for just about half a year, you dramatically improved the safety of our operation, which quickly reduced our injury frequency.

Most importantly, you negotiated with our insurance company and **took us from a 15% surcharge to a 15% credit... That's a 30% drop in our rates!!!**

**You gave us an almost \$40,000 reduction in our premium!”**

“Working together, we now have taken back control of what was an “out of control” Workers’ Compensation program.

Because of the Duncan Group, **I saved 42%** of my premium at my very next renewal!

What’s even better... I already know we have even more savings coming next year by continuing to work with them.”

## DUNCAN FINANCIAL GROUP

“ We have really appreciated the relationship we have built with the Duncan Insurance Group. They have been there for us through changes in the industry and with our company.

Throughout the years, they have advised us on how to better manage our risks and have helped us reduce our insurance costs.

We have really benefited by how their claims management team takes control of an employee injury so that the employee gets the right care, as quickly as possible, but most importantly, helps dramatically reduce the cost of the injury.”
