DUNCAN FINANCIAL GROUP

“ I have relied on Mr. Duncan to give me investment advice and make certain financial decisions since 1989, and as a practicing attorney I have many options when choosing groups and individuals for financial advice.

During these twenty-one years I have experienced unfailing financial growth which can be attributed to the proper placement and diversification of my investment portfolio. This success can be attributed to several factors: Mr. Duncan’s knowledge of the marketplace and investment opportunities, his sound judgment in making decisions regarding the timing and placement of my investment portfolio and his diligence in staying current with changing market trends and conditions.

I would recommend Mr. Duncan and his organization to any individual or group interested in keeping their financial portfolio safe yet postured for growth in this volatile investment environment.”

~Frank E. Yourick
